VOLCANO IS YET IN STATE OF ERUPTION

Continued Earthquakes Reported and New Craters Form.

SHOWERS OF ASHES FALLING

Wells for Drinking Water Have Been Dried Up—Panic-Stricken Inhabitans Fleeing in All Directions—Reports Say Losses Are Enormous.

Lima, April 20.—The volcano Puyehue, in the province of Valdivia, Chile, is yet in active eruption, and new craters have opened.

The losses in the neighboring country are enormous, and the inhabitants are panic-stricken.

Showers of hot ashes are falling, and there are continued earthquake shocks, accompanied by subterranean explosions.

Absolute darkness would prevail but for the light from several fires over an extent of six miles.

A great number of cattle have been killed near Lake Ranko.

The wells used for wrinking water have been dried up. The terrified inhabitants are fleeing in all directions.

The government has sent for assistance.

New York, April 20.—Professor C. F. Berkey, of the department of geology, at Columbia, says that the earthquake conditions prevailing in Mexico is a comparatively new region, according to Professor Berkey, where the process of mountain formation is still going on, causing earthquakes. Professor Berkey continues:

"I cannot connect the present disturbances with any particular volcanic eruption, although there are in Mexico now four active volcanoes. There is not, however, any necessary connection between those volcanoes and the quake."

Instruments Record Earthquake.

London, April 20.—John Milne, the siesmogrist, says that his instruments recorded a large earthquake beginning at 9:10 Wednesday night. It reached its maximum intensity at 10:05 o'clock and lasted a long time afterward. He tentatively estimated that it was 5,400 miles distant, probably in Mexico or the northern part of South America. Professor Delar, of the Laibach, Austria, observatory, telegraphs that a great earthquake begun at 10:15 midnight—European time. The center of the disturbance was apparently 6,250 miles distant.

FRENCH BARON ENTHUSIASTIC

Over General Affect Which the Peace Congress May Have.

New York, April 20.—Baron d'Estournelles d'Constant, delegate from France to the peace congress, is enthusiastic over the general effect which the convention will have.

The United States, he said, in an interview, set a fine example to the world for the creation of a better feeling among the people. The baron continued:

"I favor the substitution of arbitration for war, or what is even better, than arbitration and new-conciliation, and I can see the spirit growing. It might appear chimerical to some, but it is growing and nothing can stop it."

Patrick Gives Up His Law Practice.

New York, April 20.—Albert T. Patrick, the lawyer whose death sentence upon his conviction for the murder of William Marsh Rice was suspended recently to imprisonment for life, has been compelled to give up his law practice since he was removed from the death house to begin his term as a life convict. Patrick is learning the building trade, and just now is hardening his muscles by carrying timber about the prison yard.

NEW DEPARTURE IN POLITICS.

Roosevelt Studying Plan Which Will Cause Widespread Discussion.

Chicago, April 20.—A Washington dispatch to The Tribune says:

President Roosevelt is studying over a new departure in politics, which, whether it is carried out to any practical result or not, is certain to excite widespread discussion among public men the country over. The agitation for publicity of campaign expenses and various laws in the different states for official primary elections has caused the president to question in his own mind whether it may not be possible to devise a scheme by which the government may assume the responsibility, not only for the actual expense of the elections as at present, but for the legitimate campaign expenses of the regular nominees.

He has no detailed scheme in view, but is fully aware of the complexity of the subject, and he sees in advance the manifold objections that will be made to it.

Nevertheless, he believes the idea is worth consideration, and it is receiving his earnest attention at the present time.

MADE CRIMINAL ASSAULT.

Masked Men, Carrying Pistols, Tie Husband and Assault Wife.

Bristol, Tenn., April 20.—Mrs. Frank Belcher was criminally assaulted Thursday by two masked men who entered the home with drawn revolvers.

The assault was made after the men had compelled the woman's husband to get out of bed and be tied.

One of the men attempted to assault the 14-year-old daughter. She went into convulsions from terror, however, and was abandoned by the assailant.

Belcher's frantic efforts to get at the men were stopped by a blow on the head which rendered him unconscious, and Mrs. Belcher was badly beaten and choked. Her condition is critical, that of the girl being also serious.

The men, after making threats, left, and the crime was not discovered until some time later.

Citizens are wildly excited over the outrage, and there is open talk of lynching the guilty ones if they can be captured. Mrs. Belcher says she could identify them.

Posses are scouring the country.

BOND ISSUES.

New Securities Decided Upon or Sold in the South.

Baltimore, April 20.—In publishing this week a detailed list of new securities decided upon or sold in the south during the past three months, the Manufacturer's Record says:

"During the three months from Jan. 1 to April 1, of this year, the total amount of bond issues decided upon or sold in the southern states, was $15,331,918. This included some $5,000,000 of refunding bonds, so that about $10,500,000 of bonds are to be devoted to public improvements, or $2,000,000 more than during the corresponding quarter of last year. Including Missouri, Oklahoma and Indian Territory, the total amount reported was $21,787,657, but this addition included only a small amount of refunding bonds, not enough to much affect the total of such securities, so that the entire amount to be expended in the whole section is well up toward $17,000,000."

Cigarettes Cause Boy's Suicide.

Covington, April 20—Capers Jones, 18 years of age, son of J. M. Jones, prominent planter of Starrsville, near here, ended his life Thursday by suicide, shooting himself through the heart with a shotgun. It is stated that the young man's mind was undoubtedly affected by cigarette smoking.

PRAYER WAS SPOKEN FOR DOOMED MAN

Second Lynching In Louisiana This Week.

HANGED TO A CYPRESS BOUGH

Mob of Five Hundred Men and Boys Overpower Deputy Sheriffs Who Had Negro In Charge—Crime Was Alleged Assault Upon Woman.

Clinton, April 20.—Preceded by a prayer, spoken by one of the leaders of the mob, the second lynching in Louisiana this week, occurred Thursday night, 8 miles from here.

Both lynchings were for similar causes, alleged attempted assaults upon white women, and vengeance was wreaked in both cases after the negro had once escaped the mob's anger, and was being conveyed to safety by officers of the law.

Fred Kilbourne, a young negro, was Thursday night's victim. He was caught about midnight and, it is said, that the two deputy sheriffs who had him in charge made a desperate struggle, but were overpowered by the size of the mob, which included 500 men and boys.

No shots were fired on either side. The negro protested to the mob that his arrest was a mistake, he begged for a chance to appear before a jury and prove that he was not guilty, and finally he pleaded piteously for mercy.

His captors gave him plenty of time to make his statements, but remained unmoved in their determination to hang him.

When he saw that death was certain, the negro kneeled on the ground and asked that he be led in prayer. His request was granted; the prayer was mumbled by one of the leaders. Every head was uncovered.

Then he was hanged to the limb of a cypress tree. Not a shot was fired at the negro, although every member of the mob was armed. The leaders were determined men, and kept order throughout the proceedings, dispersing their followers as soon as Kilbourne was dead.

The participants in this lynching resided both here and in the country all about this place. Nearly all day a steady stream of armed and angry men had poured into Clinton, and had spent the day discussing what should be done. The authorities apparently did their best to give the negro a jury trial.

Kilbourne was spirited away from the jail and hidden in a swamp just in time to escape the first attempt upon his life. With the prisoner temporarily safe the sheriff argued with the crowd, assuring them that a speedy trial would be held. The crowd appeared to be satisfied with this assurance and preparations had been rushed to such an extent that it seemed certain the negro would be given a trial, and his innocence or guilt established by Saturday at the latest. He was employed on the plantation of the woman whom he was alleged to have attacked.

High Springs, April 20.—The New Century Club was entertained by Mrs. P. P. Wood on April 11. A very unique game entitled "Literary Charades," was the feature of the afternoon, in which Mrs. W. N. Gramling won first prize and Mrs. Sophie Sims won consolation prize. The music by Mrs. G. P. Webb and Miss Hilda Webb added greatly to the enjoyment of the occasion. The New Century Club on April 18th was entertained by Mrs. E. K. Anderson, State chairman of bird preservation. The object of the meeting was to observe "Bird Day," and this was done in a most enjoyable and original manner. Music, recitations and papers were rendered appropriate to the occasion, and as the roll was called each member responded with a quotation relating to birds. Last on the program was a game in which the answers were names of well known birds. Mrs. W. N. Gramling, Miss Marie Mann and Mrs. A. L. Moore tied for first prize, and Mrs. Moore won it. Mrs. O. M. Hatchell won consolation prize. Elegant refreshments were served. This was one of the most delightful entertainments ever given to the New Century Club.

Miss Muriel Futch entertained the "500" club on the evening of April 18. Mrs. Dennis won the lady's prize and Dr. Blackshear the gentleman's prize.

Mrs. G. P. Webb and Miss Hilda Webb, who have been visiting Mrs. P. P. Wood, have returned to their home in Dunnellon.

Mrs L. C. Gracy, who has been visiting her sister, Mrs. J. D. Neal, has returned to her home in Gainesville.

The play called "The Peake Sisters," gotten up by Miss Marie Mann, was a great success. It was composed entirely of local talent.

Talked to Large Number of Students of University Friday Night.

One of the most impressive lectures delivered at the University this season was that of Hon. Horatio Davis, which was delivered to the students on Friday evening, the speaker taking for his subject, "The Federal Courts."

The hall was crowded, and in his usual impressive and eloquent manner Judge Davis held the attention of his hearers for an hour. His address was highly appreciated, as it contained much useful information to the students.

The lecture was preceded by a number of stereopticon views of the National Capitol, and other striking scenes around Washington.

S.S.S. PURIFIES THE BLOOD

There is no other part of our physical system upon which so much depends as upon the blood. The muscles, nerves, bones, sinews, skin, and other portions of the body are sustained, developed and enabled to perform their different duties, because they are supplied with nourishment and healthful properties through the circulation. In various ways the blood becomes contaminated and polluted. A sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, will leave the refuse and waste matter of the body to sour and form uric and other acids, which are absorbed into the blood and Rheumatism, or some itching, disfiguring skin disease is the result. Muddy, sallow complexions, eruptions, splotches, pimples, etc., all show that some humor has taken root in the circulation and rendered it sour and unfit for nourishing the body. There is scarcely any disease which cannot be traced to the blood. Often the disease-tainted blood of parents is handed down to children and their lives are a continual battle against disease in some form, usually of a scrofulous nature. Rheumatism, Catarrh, Skin Diseases, Sores and Ulcers, Contagious Blood Poison, etc., are all deep-seated blood troubles, and until this vital fluid is purified they cannot be cured. For all blood diseases S. S. S. is the best remedy ever put upon the market. This great medicine is made of roots, herbs and barks of recognized blood-purifying and building-up properties. It goes down into the circulation and removes all poisons, impurities and humors, supplies the blood with the healthful properties it needs and completely cures blood diseases of every kind. S. S. S. cures Rheumatism, Catarrh, Scrofula, Skin Diseases, Sores and Ulcers, Contagious Blood Poison, etc., because it purifies the blood. Book on the blood and medical advice free.

By Mr. Adams—A bill to be entitled an act to provide for the proper care, maintenance and protection, inspection rules for regulation and control of county prisoners, manner of their discharge, and inspection of county jails, and to pay for the expense of carrying out the provisions of this act.

A special order for the day was continued and made a special order for Thursday.

Bills on Third Reading.

Bills on third reading were taken up, and the following are among those disposed of:

By Mr. Harris—A bill to be entitled an act to validate and confirm all grants, privileges and permits heretofore made or given to individuals, firms and corporations by and of the cities or towns of this State, whether done by resolution, ordinance or otherwise, in all cases where the same have been acted upon by the grantee or guarantees, their successors or assigns, by the expenditure of money in good faith, and to give the force and effect of ordinances to resolutions heretofore passed by cities and towns in relation to grants, privileges and permits.

On roll-call, bill was passed by vote of 26 to 2.

By Mr. Crane—A bill to by entitled an act to legalize, validate, ratify, confirm and approve all actions of county commissioners in relation to laying out, grading, constructiong, repairing and paving and making contracts with relation to the same of paved, macadamized or rock public highways, roads or boulevards. Read third time in full and passed by vote of 25 to 2.

By Mr. West of the Fourth—A bill to be entitled an act to provide for compulsory education in the State of Florida and to provide a penalty for the violation of the same. This bill was reported unfavorably by the committee on education. Senator Buckman spoke strongly against the measure and stated that he believed the law would not only be not beneficial but would under existing conditions be positively injurious. Dr. West defended his measure earnestly and illustrated the experience in his own county and said that when parents would not send their children to school they should be made to do so.

Senator Beard objected to the bill on the theory of paternalism and did not think the government should invade the home. On roll-call the bill was lost by vote of 7 to 15.

By Mr. Adams—A bill to be entitled an act to amend Section 112 of Chapter 5332, Laws of Florida, entitled "an act to define the grades of instruction which shall be taught in the uniform system of public schools of Florida; to aid and encourage the establishment of public high schools, to prescribe the conditions, and to make appropriations therefor. Passed by vote of 25 to 0.

By Mr. McCreary—To amend Section 219 of the general statutes of the State of Florida, relative to direction for printing of ballots, etc. Was read the third time in full and passed by vote of 20 to 1.

This bill provides that ballots can be printed in parallel columns in place of one column as at present.

Senate Bill No. 61, by Mr. Beard—To amend Section 1563, of general statutes, relating to powers of commissioners from other States. Read third time in full and passed by vote of 22 to 0.

By Mr. Crews—To amend Section 525 and 526 of the general statutes of Florida, relating to finance and taxation. Passed.

This bill gives the county commissioners the power to review or equalize the assessment of personal property as well as real estate.

The Senate adjourned until Thursday morning 10 o'clock.

HOUSE PROCEEDINGS.

The House was called to order at 9 a. m. by Speaker Matthews.

The journal of Tuesday was approved.

House joint resolution by Mr. Faulkner of Taylor, proposing an amendment to Act 19 of the Constitution, relating to local option, was referred to committee on constitutional amendments.

House joint resolution by Mr. McKenzie of Putnam, proposing amendment to suffrage and eligibility, was referred to the same committee.

The following were among the new bills introduced:

By Mr. Farris of Duval, to speedily terminate trust of trustees of internal improvement fund, and to finally discharge trustees.

By Mr. Mathews of Marion, commending action of Attorney-General W. H. Ellis in mandamus suit against Atlantic Coast Line and expressing the appreciation of the House for his services. Adopted.

By Mr. Crawford of Orange, exempting from taxation certain timbered lands; committee on forestry.

By Mr. McClelland of Suwannee, relating to securing money or property on false promise to perform labor or service.

By. Mr. Faulkner of Taylor, for calling election for State prohibition.

Other Senate bills were received and referred to proper committees.

After acting upon a number of bills on second and third reading, the House adjourned until 9 o'clock Thursday morning.

In the Mayor's Court.

The following cases were disposed of in the Mayor's court Thursday morning:

James Gordon, disorderly conduct, $5 and costs.

Edmund Turner, disorderly conduct, $5 and costs.

Both fines were paid and the defendants released.

VISITING COMMITTEE INSPECTS UNIVERSITY

Reached Gainesville Thursday and Spent the Day Here.

WERE APPARENTLY PLEASED

Dined in Mess Hall of University—Escorted to College by Committee of Distinguished Citizens Accompanied by Chairman Board of Control.

The joint committee appointed by the Legislature to visit the State educational institutions for higher education, and which is now on a tour of inspection of the various institutions, paid the State University of Florida an official visit Thursday.

The committee comprises Senators Baker of Sumter, Neel of Walton and Crill of Putnam, and Representatives Willis of Levy, Knight of Citrus, Kilgore of Sumter and Wartmann of Marion. Owing to other important engagements Representative Wartmann could not be present with the committee, but expects to reach here Saturday, when he will be shown through the University.

Hon. N. P. Bryan of Duval, chairman of the Board of Control, accompanied the committee.

The committee was taken in carriages by Mayor Thomas, Col. W. W. Hampton, Col. J. M. Rivers and W. N. Wilson, comprising a committee, to the University, where they were cordially greeted by President Andrew Sledd and other members of the faculty. They made a thorough inspection of the buildings, grounds, etc., and appeared well pleased with what they had seen.

The committee dined at the University mess hall, partaking of the same bill of fare which is furnished the students. The fact that they seemed to relish the meal is best evidence that they were satisfied with the culinary department.

The committee left in the afternoon.

Why

Have a torpid liver when Herbine, the only liver regulator, will help you? There is no reason why you should suffer from dyspepsia, constipation, chills and fever, or any liver complaints, when Herbine will cure you. F. C. Waite, Westville, Fla., writes: "I was sick for a month with chills and fever, and after taking two bottles of Herbine am well and healthy." Sold by W. M. Johnson.

Senator McCreary's Uniform School Book Bill Now in Hands of Committee on Education, and Has Created Considerable Interest—Other Notes

(By L. J. Brumby.)

Tallahasse, April 21.—When the Legislature reconvenes Monday afternoon at 3:30 o'clock there will be just thirty-nine days including Sundays left of the session of 1907 to dispose of the enormous amount of business now on the calendars of both houses. But this is a working body notwithstanding these week-end adjournments which, by the way, the Senator from Alachua recorded his vote against the proposition.

The Alachua delegation by the way is more than holding its own in this very strenuous Legislature, so far considered one of the best in many years.

The McCreary uniform school book bill, introduced about the second day of the session, has created a great deal of favorable comment, and is now before the committee on education, together with the Crane bill on the same subject. Both bills have been ordered printed and the authors of bota agree that each has some especially good features. So it is thoroughly possible an understanding may be had, and that the friends of this important movement may be rewarded for their long wait by some definite action at this session. Be is understood, however, that this correspondent does not speak for either of the authors of the bills and when both are reported from the committee and come up for consideration by the Senate, important differences may be developed.

The Senator from the Thirty-second has also introduced a bill especially interesting to the people in the phosphate belt, providing for protection of stock from injury caused by mining operations, whether by plant, excavation, bogs or otherwise. This bill has been formally reported to the judiciary committee.

Other bills of the Senator embrace those increasing pay of county commissioners and members of school board, and by request, bill authorizing rewards by county commissioners for persons charged with criminal offenses.

On the House side, of course, the House Concurrent Resolution No. 1, but really better known as the Carter Investigation Resolution, is famous, and its success is largely due to the political acumen of its author.

Representatives Carter and Eoke are "among those present" at all sessions, and certainly so far the good old county of Alachua is very astute.

April 26th is Memorial Day.

There are but ten counties in the State that are not in the dry column. Wait until the prohibitionists get after them.

Three Indian divorce cases are reported from Bonesteel, N. D. The noble red man is acquiring the habits of civilization fast.

While the party furniture is falling around and breaking, Mr. Fairbanks seems to be devoting himself assiduously to keeping quiet.

District Attorney Jerome must be a cold-blooded individual. It is said that he proposes to enter a vigorous objection to letting Harry Thaw out.

Work on the $25,000 plant for the manufacturing of gasoline lamps in Tampa is being pushed rapidly as possible. The company will employ between 150 and 200 men, the cost of the building alone being $10,000.

Joe Walton and Alfred Sargeant, both negroes, will pay the penalty of their brutal crimes in Jacksonville on Friday, June 14th. This double hanging will be the first legal execution in Duval county in four years.

Two white men and a negro have been wounded over in Louisiana in a clash between races. Wonder whether this tragedy will be attributed to Thos. Dixon's "Clansman," or Senator Ben Tillman's speeches on the race problem?

Judging from the published reports of the storm in Jacksonville Thursday afternoon, the people of that city had a "hail of a time" for an hour or so. But Jacksonville, like the house that was built upon the rocks, is there to stay, and it will require something more than fires and cloudbursts and hail storms to keep her down. The only thing would be a landslide to dump her into the sea, and then it would not be surprising to see her "bob up serenely" from the depths of Old Neptune.

The fact that Mr. Harriman, the most influential and corrupt railroad magnate, was consulted by the President about his recommendations to Congress on railroad rate legislation is the more important question than the raising of a corruption fund by the corporation magnates. It is about analogous to a Prohibition convention calling in the most influential saloonkeeper to advise the committee on resolutions what to put in the platform. No wonder the railroad rate bill is ineffective.

The North Atlantic fleet is now waiting in Hampton Roads to welcome the warships of foreign nations which will come to participate in the opening ceremonies of the Jamestown Exposition. How sweet it will be for foreign powers to greet each other with ceremonies of peace instead of the thundering of cannon in aggressive and disastrous war. It is even more gratifying, following the international peace commission in New York. It seems that these instruments of war were sent by Providence as emblems of peace on earth.

FLORIDA'S RESOURCES.

N. H. Fogg of Altamonte Springs, Orange county, has written to The Chattanooga Tradesman a most interesting letter relative to Florida's many interests, which is full of truth, and which in part is as follows:

"It is but a few years since the productiveness of Florida became known to agriculturists—in fact only since the disastrous freeze of 1895, previous to which time it was considered that nothing could be raised at a profit here except citrus fruits, razor-back hogs and scrub cattle. But after the almost complete destruction of the magnificent orange groves those who could not leave the State on account of their depleted bank accounts and those who would not leave this most delightful country began to look the situation in the face.

"On looking over their sandy soil, that had produced such beautiful and immense orange trees, it occurred to them that land that would produce such mammoth orange trees ought surely to produce something else if properly cultivated and managed. They at once ploughed their grove land, which in most cases was under a high state of cultivation, and planted it in crops of various kinds as an experiment, and in most cases their harvest was a revelation to them, and it at once became evident that diversified crops was the only successful road to prosperity; and today it has been conceded that the destructive freeze was a blessing in disguise, as the thousands of happy and prosperous farmers and fruit growers are in evidence. The fruit industry was not abandoned only in cases of financial embarrassment. The groves that recuperated and the new groves planted would not indicate to the newcomers that the beautiful groves of a few years ago had ever been destroyed. Aside from the fruit industry other crops are now cultivated with the most gratifying results, and every industrious and enterprising man now possesses a snug bank account and is enjoying life and longevity in this delightful climate.

"In describing the success of agricultural pursuits the raising of fine stock must not be lost sight of. Instead of the razor-back hogs the varieties of pure bred hogs which thrive best in this mild climate have been introduced and Florida can now produce as fine stock as any section of the United States, and it is now conceded to be a most satisfactory and profitable industry.

"The climatic conditions and the easily cultivated crops for their maintenance and fattening has demonstrated that a pound of pork can be produced for about one-half of the expense that it can be produced in any other State, except it be in some other of the extremely Southern States. The scrub stock has seen its day and has been supplanted by blooded stock as successfully as in the hog industry. The falling off of the shipments of Western beef in the past few years is very pronounced, and the indications now point to the export of fine beef cattle from her borders in the near future."

CHANGE IN CABINET EXPECTED

There are stories afloat of strife in the cabinet. Just how much truth is behind some of them, it is hard to say, but it is guessed by some long-range guessers that Secretary Root will not stay out this administration as Secretary of State. He took the position rather under protest. He gave up a very large and lucrative law practice in New York, congenial surroundings and congenial friends to take what he believed was a place where he would really be serving the country. That he has proved an able diplomatist all of the diplomatic corps in Washington are willing to tessify, and the settlement of the Alaskan boundary dispute will stand as more of a mount to his ability than anything he would ever have been likely to do had he become President. But it is said either with or without good reasons that he is dissatisfied with his present relations to the administration. There is no denying that the influence of Secretary Taft with the President has been greater than that of Secretary Root, and were it not that he has some important things he wants to accomplish with South America, it is probable the guessers say he would quit the Cabinet this summer. As it is, he is more or less bound up with securing recognition of the Drago Doctrine as a complement of the Monroe Doctrine, before the coming Hague Tribunal, and if he accomplishes that, he will have made a record that few Secretaries of State have equalled. Thereafter it is understood he will return to New York.

RECLAMATION OF THE WILDS

It is said that settlers rush eagerly to the localities in which the government operations for reclamation of barren lands have been begun. People anticipate the improvements far ahead, and towns and villages follow close upon the heels of the engineering parties. It is human nature to think that a big undertaking must succeed, and opportunities right at home are neglected in order to get in line with something big. But wild desert tracts are not the only fields where reclamation would prove worth while.

Many old lands have been left to run to waste in this country because their productivity for the old crops has failed. But they are not necessarily beyond reclamation. Agricultural science is teaching new ways of keeping up the productivity, among others the introduction of new crops. Immense areas of land "good for nothing" a few years ago are now growing celery at a big profit. Berries for the market are now cultivated on lands that formerly were overrun with wild varieties and yielded no profit to the owners. Experts recently declared that large tracts of unused land on Long Island can be made profitable by banana culture. Another new product recommended for America is the English walnut, now imported from France for the American market. In France a walnut bearing orchard is worth from $400 to $500, and an acre yields a revenue of $75 to $100. A walnut orchard may be used for pasturage and other crops, and experiments can be made without great risks. States south of Mason and Dixon's line and along the Atlantic and Gulf coasts are said to be suitable for this walnut. Most land which awaits reclamation from abandonment lies convenient to markets and amid civilized surroundings, a strong point in favor of tackling reclamation work right at home.

The above is a valuable article clipped from The East Coast Advocate, published at Titusville. Alachua has much of this kind of land referred to and can be easily reclaimed. There are many acres of land in this county which we believe would be suitable for a walnut orchard.

"INSANITA INGRATITUENDA."

If the published reports are true that Harry K. Thaw, the noted New York murderer, has dispensed with the services of his leading attorney, Delphin M. Delmas, it looks as though Thaw's afflictions might be a combination of insanity and ingratitude, hence his condition, for want of a more appropriate term, should be designated "insanita ingratitnenda," which would sound just about as well, and carry probably a more forceful meaning, than many terms which have been applied by the experts on the witness stand. But the special commission declared Thaw was now in his complete and proper mind, and because Attorney Delmas, in an endeavor to save him from the electric chair, endeavored through an alienist to bring out the fact that Thaw was suffering from temporary mental derangement on the night he put out Stanford White's light, Delmas got his walking papers. Thaw appears from his actions to be a "peculiarly funny" sane man.

The first convention of the National Arbitration Peace Commission has come to an end in New York with very gratifying results, being an affiliation of the important nations of the world. Let it be hoped that the world will follow the objects and principles of this great gathering of distinguished advocates of peace, for, as the Hon. William J. Bryan remarked in his address before the convention, we should make peace by love, and not by force.

Guaranteed Stomach Remedy.

You many ask why J. W. McCollum is able to guarantee to refund the money unless Mi-o-na Stomach Tablets cure when no other remedy for stomach troubles is sold in this manner.

If the stomach is only given a rest by using a digestive, the muscles soon become weak, and it is necessary to continue taking a digestive tablet after every meal. On the other hand, Mi-o-na used before eating strengthens the stomach so that you will soon be well enough to give up the use of medicine.

Mi-o-na costs but 50c box, and makes positive and complete cures. The best proof of its merits is the guarantee to refund the money if it does not cure that J. W. McCollum gives with every box.

The First National Arbitration and Peace Congress in the United States adjourned Wednesday night. Delegates from many European countries were present. It was not an official gathering, and delegates were there solely in the interest of humanity, the objects being to promote peace and to encourage a universal policy of arbitration in all disputes arising between nations. It is hoped that this conference was another step in the direction of universal peace.

Congressman Frank Clark delivered a stirring and impressive address before the convention of county school superintendents at Tallahassee on Wednesday night. The convention, which met to make recommendation to the Legislature as to needed legislation looking to the betterment of the Florida schools, was held in the Hall of Representatives, and was attended by many prominent educators.

The Department of Commerce and Labor has issued a bulletin lately saying that the commerce of the world now exceeds twenty-six billion dollars, of which thirteen and three-quarter billions are imports and twelve and one-half billions are exports. The United States sends to other countries 14.37 per cent of their total imports and receives from other countries 14 37 per cent of their total exports.

If you are superititious about the number 13 you had better give us your quarter dollars, for on each one are 13 stars, 13 letters in the scroll of the eagle's back, 13 leaves on the olive branch, 13 arrow heads and 13 letters in the words "quarter dollar." Now it's not safe to keep them, so just bring them in and get credit on your subscription for the full amount.

Governor Broward is right in his message when he suggests that county commissioners and city councils be allowed to expend a part of the public money from time to time in advertising through printed matter and otherwise the advantages and resources of their respective counties and municipalities with a view of inducing more tourists to come to Florida.

The special election held in Jacksonville on Tuesday for the purpose of submitting to the voters for their approval an ordinance granting to the Jacksonville Electric Company a new franchise, resulted in the ratification of the ordinance by an overwhelming majority, the vote being 1,000 to 131.

The hail-storm in Jacksonville Thursday was the heaviest and most prolonged in the history of Jacksonville. In fifteen minutes there was over an inch of rain and melted hail. The hail-stones averaged three-quarters of an inch in diameter and many were over an inch.

The Times-Union "Short Talks" man says that "the Sanford truck farmer who will realize $18,000 off 35 acres planted to celery this year is only another one of the farmers who are growing wealthy off Florida 'sand.'"

SATURDAY'S EXAMINATIONS.

Five Applicants Stand Examination For Rural Free Mail Delivery.

The examination for rural free delivery service was held Saturday under the civil service rules.

The examination was conducted by Benj. T. Arnow, the only person in the city authorized to conduct the same, J. E. Wainwright having been absent. Mr. Wainwright is attending the session of the United States court in Tampa.

There were five applicants—all white. Three were for Gainesville routes, two for the proposed Micanopy routes.

A report of the relative standing is expected in a few days, when the new routes will be established.

ACTUALLY CURES CATARRH.

It is one thing to claim, but another thing to back up the claim by a statement that if not proven true, there will be no charge for the service or the goods. It is in this way that J. W. McCollum sells Hyomei, for he has so much faith in its power to cure all forms of catarrh and bronchial troubles that he gives an absolute, unqualified guarantee with every outfit that if the remedy does not cure the money will be refunded.

A complete Hyomei outfit costs but $1, making it not only a very pleasant method of treatment, but most economical.

DEATH OF CHAS. R. HOWELL.

One of Gainesville's Old and Well Known Citizens Passes Away.

Chas R. Howell, seventy-nine years of age, and one of Gainesville's pioneer citizens, passed away at his home during Thursday night as a result of lagrippe, from which he has been suffering for the past ten weeks. It was his advanced age which eventually resulted in death from this illness.

Deceased was a native of Illinois, but came to Gainesville from Cairo, that State, twenty-eight years ago, since which time he and his devoted wife have been residents here.

Deceased was a member of the Methodist church in this city for more than twenty years, and was possessed of a liberal, generous, Christian character which has marked his life for years. He is survived by a devoted wife, to whom the sympathy of the community is extended.

The funeral was held at 3 o'clock Friday afternoon from the Methodist church, Rev. T. J. Nixon officiating. The pall-bearers were L. L. Hill, W. P. Carter, G. M. Colman, James Doig, E. Baird and E. J. Baird. The interment was in Evergreen cemetery.

There were numerous floral designs, the casket being covered, which was evidence of the high esteem in which deceased was held.

At 2 o'clock in the afternoon of Wednesday there will be a pony parade, followed by the baby show on the lawn in the afternoon. All babies are eligible, and this contest promises to be one of great enthusiasm and interest. Gainesville is noted for its pretty babies, and they will all be seen at this baby show.

In the evening a number of the society young ladies will present a Grecian drill—"The Fire Worshippers"—which will prove a most spectacular production. Lights of various hues will be thrown upon the scene, which will comprise many tableaux, and alone will be worth going to see.

Refreshments will be served upon the lawn at reasonable prices.

A large crowd witnessed their work Wednesday night, and prononnced it first-class in every respect. The team received many congratulations, which were deserved and appreciated.

Friends of Mr. Leybourne in this section will sympathize deeply with him in his bereavement.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. A DELIGHTFUL AFFAIR.

Mrs. W. M. Johnson Entertained In Honor of Her Sister, Miss Walls.

One of the most delightful social events given in this city for sometime was the card party tendered by Mrs. W. M. Johnson Wednesday evening in honor of her sister, Miss Julia Walls, of Wilson, N. C., who is visiting here for the season.

A noticeable feature of this occasion was the decorations, the scheme of which was pink. Fragrant pink roses adorned the rooms, and the guest of honor was gowned in a magnificent pink costume, making a very pretty effect.

In the receiving line were Dr. and Mrs. Johnson, Mr. and Mrs. L. C. Seaton, and Miss Walls.

Progressive whist was the game. There were ten tables, and those who surrounded them demonstrated their ability as players.

After delicious refreshments of ice cream and cake were served, the guests were ushered into the dining-room, where they were greeted by a beautiful sight. In the center of the table was a large cake, and from the chandelier above were streamers of pink ribbon, extending to each corner of the table. Twenty pink candles, tied with bows of the same shade, were set about the table, making a most striking effect.

The guests were invited to cut the cake, Miss Walls, the guest of honor, taking the first slice. The ring was cut by Miss Dorothy Wagner, the dime by Miss Marguerite Stringfellow, and the silver thimble by G. Henry Davis.

In all, the affair was quite a success, and was thoroughly enjoyed by those who had the good fortune to be present.

A Delightful Musicale.

The society column of The Times-Union of Thursday contains the following, which will prove of interest to readers of The Sun, the parties being former residents and well known here:

"Tuesday evening, April 16, at the home of Mrs. Charles E. Dorsey, 1617 Hubbard street, a very delightful musicale was given by the pupils of Miss Mary White Redmond. After the rendition of enjoyable numbers which reflected great credit upon the class, an interesting contest followed.

"A prize was offered for the one who could recognize and write the names of twenty-one composers whose portraits were framed and numbered. When the papers were examined, it was found to be a tie between Miss Laura Brownfield and Miss Anna Teutenberg, who drew for a beautifully framed picture of six favorite classic composers, and Miss Anna Teutenberg won.

"Mrs. Brownfield assisted Mrs. Dorsey in serving delicious refreshments to the pupils and patrons."

Mrs. R. Wilson

Albert Debose of the Rocky Point section is one of the progressive and successful colored farmers of this section. He not only raises a fine crop of staple articles, but is also engaged in melon growing. He has thirty acres planted in cantaloupes which it is said are as fine as can be found in the State, and will make a prolific yield of good fruit.

Attention is directed to the big advertisement of The G. W. Hyde Co., which appears in this issue. This enterprising firm will conduct a grand ten-day sale, which began yesterday, when thousands of dollars, represented in the immense line of dress goods, silks, white goods, wash goods, embroideries, hosiery, underwear, cotton goods, household furnishings, millinery, ready-to-wear garments, rugs and curtains, will be offered at about twenty-five per cent less than the regular price. Those in need of such goods would do well to call and inspect the line.

THE SUN'S NEW MACHINE.

After Today This Paper Will Join the Ranks of Machine Journalism.

Beginning with Tuesday's issue, if everything goes well, The Sun will join the ranks of machine-set journals of the country. This change became necessary owing to the rapidly growing field in this vicinity, which demanded a more rapid and expedient manner of putting the types together.

The Sun has always endeavored to give its patrons one of the best daily and semi-weekly services in the country, population considered, and whether the management has been successful is left to these patrons.

John Shea of Anderson, Ind., a machinist-operator who comes highly recommended, will have charge of the new machine, which is one of the latest of the Mergenthaler type. Mr. Shea has been engaged in installing the machine for the past two or three days, and hopes to be in position to give the paper a new dress by Tuesday.

THE SPRING CARNIVAL.

A Most Novel Entertainment to be Given in Gainesville April 24.

Don't forget the Spring Carnival to be held under the auspices of the Woman's Guild of Holy Trinity Church, Wednesday, April 24th, beginning at 3:30 o'clock. The parade of decorated pony carts, driven by their owners, will begin at 3 o'clock and wind up at the carnival in time for all the children to get rides during the afternoon. The small sum of five cents will be charged for a ride around town.

The children's friend, "The Lemon Lady," will be on hand, and wishes to say to the children that she is prepared to eat all the lemons they can secure for her, and promises to give everyone something nice in return for their lemons.

Mothers, don't fail to bring your babies to the "Baby Show." You should be so proud of them. You would want to have them among the prettiest lot of babies ever brought together in Gainesville.

Don't let anyone miss the performance of the "Fire Worshippers," to be held on the lawn at 8 o'clock in the evening. There will be no charge for this entertainment and we hope that all will come out to see it. Nothing of its kind has ever before been presented in Gainesville, and it promises to be most attractive.

The public, especially the children, are most cordially invited to come.

A New Roof Coating.

I wish to say to those in need of having their roofs repaired, I have a coating, just introduced by L. S. Dome of Ohio, that speaks for itself. A trial will convince anyone that it's far ahead of anything on the market, the body being coal tar with graphite and six other ingredients. We put it on hot in 24 hours. It's a firm, hard cement roof that will stand all kinds of exposure for years.

Don't tear off your old roof. Let us apply our coating, making them last several years longer, at the same time a fire protector.

We are ready to do your work at a reasonable price. Give us a trial and save painting every two or three years.
